

I live with 3 Border Collies, one show and 2 working. Helen has helped me with all 3 dogs for the past 12 months.

Fly is 10 and has always had issues with noises/thunderstorms and travelling in the car. After one treatment of homeopathic medication, Fly was not as sensitive to storms and is not getting as worried when travelling either.

Sprite is 6 and has jealousy issues with one of my other dogs, and with Helen's help this has lessened and Sprite is more relaxed and a happier and more loving dog.

Jaidee is 2 and is not a confident fella, he has had a lot trouble with our tiled flooring at home and also eating. Again with Helens help, Jaidee is much more confident getting around our house and he is eating all his food. Jaidee has been able to maintain this confidence after the 2 initial treatments for some months now. This new confidence is also reflected in his approach to everyday life, including agility and herding.

My dogs also get regular Bowen therapy from Helen to help maintain their very active life styles. It is always a pleasure to have Helen treat my dogs in such a professional and caring way, and the dogs always greet her with enthusiasm.
