

Thanks so much for the Bowen and Kinesiology Balance you gave Jake, my Cavalier King Charles Spaniel, he is much more agile and active and flowing with his movements , even after one treatment . This is especially noticeable when I take him to the park, he just runs for his life.

I have changed his diet as you suggested and he is much healthier and starting to loose weight. The essences have also helped greatly.

Thanks for giving my doggie a new lease of life, he is much more agile, and is a lot happier in himself.
