

## “Panda”

### **Australian Champion Kachinka Domino Dolly**

7 years old this year. Panda is a retired show dog absolutely beautiful however hated the show ring. She seemed to be worried that something was going to happen to her. Loved being bathed groomed & presented for the ring then at the ring entrance she would become anxious with the general noise surrounding the show rings. I have found the Remedy & the Essence Remedy for storms to be very beneficial for Panda. Panda is terrified of thunder & can hear it approaching from the Queensland border. As she has become older her fear seems to have increased so much so that I had become increasingly worried. Panda is also terrified of the noise of fireworks. So the Essence remedy has been very good indeed & I am thrilled with the results. Pandas confidence has improved so much she is now competing in obedience trials and is doing very well & I understand that she maybe the only shih tzu currently competing in this discipline. She recently gained 3rd place at the Canberra Royal Obedience & is presenting herself very confidently & self assured. I did hear that she suprised the judge with her ability & her confident sit & drop stay with a line up of working dogs..Thank you Helen for your advice it all counts for the well being of the dog & I am very grateful.

Kind Regards Di Milne  
Silkowrd Shih Tzus
