

Dear Helen

You will be pleased to hear that the homeopathic remedy you gave has also helped my mums little papillon who has in the past consistently worked herself into a lather when travelling in the car or put in a new environments.

We gave the remedy to her 30mins before a short car ride and she didn't show any signs of stress for the first 5mins. Normally she would be stressed immediately. We then gradually increased this and now we were able to do a trip of a couple of hours with no problems what so every.

Now we don't even need to use the remedy for short every day trips, and that is after about 3 months .

Helen Stathy , *Western Australia*
