

Before I started Primrose on the essence remedies suggested by Helen , she was a very insecure dog. Primrose competes in obedience and her heeling was not good and she appeared worried in the ring ,now since February 2011, after 6 months of using the remedies regularly at first but now more intermittment, she has gained her CCD and CD titles with 1 first and 2 2nd places and one score of 95. Her GWT has improved also with only one more pass to put her in open.

From a dog that struggled with simple CCD stays she is now getting the hang of out of sight stays and getting less worried all the time.

So we are now in open with the big guys and hopefully that title won't be too far away.
